3. IMTIVE LIWS MMEDMENT ACT. Onc Mestorn.

Wre. Eotorson oxpreseed tho ericitucio of Capo llostofit to tho Contr: 1 Becutivo for arrancine this spocial nootiag, as titis mottor was of gro $t$ concorn, not only to the Capo Mestorn Rogion, but. to tho whole of the Eish.

It apparcatly was not approciatod that Cape "Ucstoru was confrontcd with a live situation, and Capo Nostorn know thet sconor or lyer thoy would foco a crisis. All public moetings woro c.ttonded by peoplc of oll racos. For oxamplo tho Inctitutc of Citizonship hold lunch-hour yootiags which woro attondod by colonrod nooplo. Concorts in tha City Hall woro opon to all. Becauso of tho liativc Laws mondment ict, Capo Vicstorn forosaw that thoy would possibly rocoive a prohibition as so may of thuir wotings woro on mittors affecting tho Non-Europocn. Tho mocting callod to protost on Univorsity Apartheid was supportoc by the Black Sash in tho Capo. Nanj ifricans attondod this nootine. The mooting on tho Nativo Lows Amond ont Lot which Advocatos $G_{6}$ Gordon and D. Moltono aderessod was c.lso attondod by ifricans. Other mootinge, which worc cunctional but with a logul flavour, drow many hîrionac. These mectings worc obviously listastoful to the govornamt and the govormont could very casily forbid Cipo \#osturn to hevo ifricanc prosent at thoir nootincs.

The noxt mooting tho Capo Wostern Rogion intondod organising wid bo on the Nursing Bill. It one hospital tho staff wes ontiroly lion-iuropoan. Capo Wostorn ai ht bo faced with a docision eithor to bock down or hevo a notico sayine $\therefore$ fricnns wero prohibitod fron cttondine this mocting, whish would be acainst our Constitution, or thoy would beck out complotoly.

In the ovont of the lattor possibility, Cape $\%$ storn bolioved that tho influenco of the Black Sash would bc dostroycd, and tho public would not have such rospoct foe whet the Elack Sash seid or did. Yatal Midlands and N.tal Coastr.l Morc affoctod in unch tho same way as Gesc Viostorn.

Mrs. Potcruca : wot on to say thet tho Contral Sxocutive wieht think that bocauso Cupo \%ostern folt this way, Capo Hosiorn shoule go ahcad. If thoy did the Fross w uld naturally ask whothor the Wational Body of tho Black Sesh endorsod their action. Some statonont should como from tho Central Exocutivo.

Capo Nostorn folt i: was fundanontal that onch Recior should uncerstand that Cepo Nestorn broucht $u$. this natter ot Confor unco, yot as an acorouic point, but becausc of a live situction which cxistod in the Capo. Cape Vostorn could possibly $\subset$ o ahond hoping thero would not bo a prohibition, but if it did it would be os tromendous valuc to Capc Nostern to hevo a guide fror the roct of tho country.

Thore was a movomont for all orqanisntions to procent a unitod front. Cape ilestorn hed said ovor tho last two nonths that tioo nettor had beon hold in aboyewao

Cape West.inn dic not wish to "hold a piatol" to anyono's hond, but should Gapo beorn havo to back cown, most of Capo Wostorn's connittoe who hod lod ti. Rogion would harc to resign. It would bc impossible for thom t: curry as as thoy would joc: liko hypocritce.

This dic at mon that tho whelo of Onp Nostorn would rosien. There wore some, ove: wo or two on the Mrationel Council, who thi, lat stay on joceusc thoy wot not yot docices on what stand choul\% be takon. Host of the eynonic aubors in the Branchos wild leave. Tho request originally came Aron the llosobank, Roncobosch and Milnorion Eranchos.

Cape Nostem realised what the position was in other Redions, but thero ust bo some solution, and Cave Westorn wished to trnow the true situation.

The Gham 1 comentiag un lis. Peterson's romarks, said that tho Contral Exeoutive appreciated that in the Capo all public meetinga vero open to evaryody. Wo nust find some solution. Otherwise we would be faced with tho following altornetives:-

1. Dissolvo the Black Sneh.
2. Drua' tho Black Sash.
3. Climb down and made fools of oursclves.

Conditions in Johannosburg wero different. Thore wore vory fow placas whoro multi-racial audio.cos were allowed and ia somo woy wo should protect Rogions like tho Capo Westeri, Netel and Bordor who found thonselvos in an invidious position.

The matter des fully disonsoc, and the foiloming varying points emorgod.

As the Contral Exocutive were asked io inplonent the resolution subjoct to loal opinion and now, finding that Counsol ndvisod that it should not bo in lementod, could net this resolution bo roscindud?
2. Tha rusolution could not bo roscindod, es it was a Conforcuco Hacision. Due soying that wo could not implonont tho dovision aight have moro affuct.
 Uxocuise onen loznl cevice hed been takn, it woulh som bo porfectly narst tu\% can 1 :or the Contral Exocutava to conc out wivn e clent point ०f viow。

An': ac. A punsiblo to circularise all Rogions saying "In view of hgent =lmo wo inve mat, the Ooxral Exocutivo will aot inplejur that
 Council riicht je ablo to formulnte a resolution which wo culi act. Foelings of 211 Roricns should be nece known to Council. 2 i io volic not be wostod if ali aoneve of Recions wero spoken to, as this vould probably be the best way to guage what the genoral focling was. Cays Wostorn had nover eant in a report of what they hed dotie, and in sonc cases it had coto is a shock to the Central Exccutivo ti $\therefore$ docisions ad bec. mide and executed of which tho Centra? Executive had no frever alde or warning.

Mrs . Peterson repliod by snying that Capo \#ostorn had sont speakors ${ }^{1}$ notos in ifarch on the Notive Laws mond ont hot with s report. Whilst adaioting that the Contral Executive coule not koop 'tacs' on oach aciton, Capo Vestern wore uncor the inpression the they had nade their viows on the Nativo Laws Aendaent het clonr. The Contral Executive pointed ous that they had only thought vaguely that that was the rouson sohind the spackors ${ }^{1}$ notos. Nothing was saic about broeking tho law.

Considoring tho resconsibility tomards all Rogions, no Zocision culd be takon without all Ro ions having fully consicorod this question.
Spoakers shoulc go to all Rogions and Branches, and Gouncil zozioers rust bo fully cuare of the foeline of tho Branches in thcir Rocions.

The besis of all this was Cnpe Mostern's failuro to sond in roports and minutes. Mrs. Potorson agrood that this was a gront pity. 1:0-ono know why this was so. There was, howover, tho foclins that Gapo Hiestorn should not ndvertiso therselves. Fid full rejorts boek sent in Conforenco would thon have known what Capo \#ostern's dillicultios woro. It was pointod out to Gapo lestorn that the Secrotory hed written to cil Recions asking for monthly inutes and re orts. Ga.po Mostcra had not sent minutos but sad they would send a ro rt, which had not boon dono. Mrs. Potersen exdorsod hoartily what tho forser speakor had said, enc oxtonded en apology to tho Central Exocutive for this, and assured the: that this eattor would be rectified in future.

## Watal Mielands.

Mrs. Corricall folt thet holring a Council acoting in Soptember was a littio late. This Resion had Non-Suroperns at recotincs. The question of froodon of association worried thon. There was the suggestion that a frocdon of association comittoo should be forned to protoct frocion of association. Conforonce acreed that Noscaces Corrigcill and Scott should go as nombors of the Black Sesh to this meoting. Tho next Executive nooting would bo on hucust 8th. Litorature would bo sont on to tho Contral Executzve aftor this nooting. This con ittoo subscribod to the following threo points:-

1. To uphold the richt of freedon of association.
2. To protoci any indivicual or ascociation victinisod thereundor.
3. To associate itscle with any similar organisation in the countryo

Mrs. Corrigall went on to say that it vould bo inpossible for then to ronain on this comittoo as Black Sash. The inplication of broaking the law was thero.

Mrs. Corrigall was asked whet the position was in Vatal rocarding public noctines and sho replied that the Fioternaritzbure City Ha ll, for example, was open to all races. It was not suro whother this wes a provinciol ciccision.

Furthor discussion revoaled the followine verying eoints:-
We had made tho istake of tryine to ruch this nittor. A nemorandua should heve nono out to each menber of the Black Sash. It should go out now. alas it worthwhile brcolcing the movemont over this becauso wo hed mistake? Rocions hi ht broak away.

In view of legal advice, tho Contral Executive folt it culd not decide for other women. Gounsel felt it was a mattor for individuel conscionce.

It was recomendod that ono lot of all Native Laws dendent het literature should be sent to cach Recion, and if possible the Contral Exocutive should visit each Branch.

We should ovolve a statezent that the Central Executive could not iaplement this decision boccuse of teras of reference of logal advico. Council must moet having considered fully in Recions aud Branches and deternine how far we could co. Difforent conditions existod in difforent Provinces.

At tho close of discussion, Mrs. Dictrich pronosed tho following resolution:-

Further to the rocomondation passed unanimously at the mocting of tho Contral Executive on loth July 1957*, the Central Executive, in view of the legal edvice obtained, unanizously refuses to ratify the rosolution "thet in thosc instences where the Black Sash finds it s work is cffected, or its principles outraged by the rativo laws Anondont lict, it mey feol itsolf morally bound to disregard tho prohibition nede uncor the het, but that legel opinion shall be sourht. hay cecision should be postponed until after logal advice hes boen obtainod." The Notional Council will bo asked to confirm this docision.
(N.B. *Ronomendation pessod by Central Executivo 10th July roads:-
${ }^{5}$ It was agreed unaninously by the Contral Executive that the Natione? Council ust decide upon tho action to bo takon in theso iratences where the slack Sash finds itis work is affectoc or its principlos outraged by tho Native Lews mendwont Act, beering in uind the advice given by Gounsel to the Contral Executive. $\quad 111$ Rogions were ur ced to discuss tho local opinions anc every aspect of the lletivo Laws fonenonts act comletely and exhaustively beforo the Council Neoting; so that oach Rerion would be fully evare of tho foolings of all thoir individual nombers. ")

Mrs. Peturesn proposed that we add an addendu: that how the Netivo Laws Anondeont let affocts the Black Sesh would cone up at Council.

The rosolution was propesod by Mrs. Dictrich, and seconded by ivrs. Fisher, and PisSPD UNANIMOUSLY.

The following statezent was drafted by Mrs. Petersen:-
The Slack sesh, having consi ored the ipplications of the
No.tive Lows mondent lict, roaffiras that it exists, anone other things, to uphold civil rights and libertios in ovory way, and will continue to sork in tho futuro as they bave in the past.

Mrs. Potorsua wont on to say that she realised thet tho Blacik Sash was idontifiod with the Trecton of Lssociation organisetion, and she felt that her state ont reforred to "civil rights and liborties "and would therofore cover this.

## C. Native Laws hendront Let.

Mrs. D. Hill (Chairsan Southern Transvaal Recion) and Mrs. M. Dey (Vice-Chnrraan, Southern Transvaal Region) had been asked by Mrs. Sinclair to attond the Contral Executive aeeting at this point in order thet thoy present the suggestion fron Southern Transvaal Regional Comittoe.

Mrs. Hill pointed out that this suggestion had not been discussed by all Branches in the Southern Transvaal. However, this wes being organised. (Copy of the sugqestions attached.)
